**TO:** Whom It May Concern

**FROM:** Angela Williams and Daniel Salinas  
Mentor Program Coordinators

**RE:** Recruitment of New Mentors

**DATE:** October 27, 2008

Daniel Salinas and I are the coordinators of the Jersey Village High School Mentor Program. Our program is one that identifies “at-promise” students and matches them with a trained mentor who volunteers thirty minutes per week to work with that student. During that time the mentor and mentee talk...sometimes about life, home, family, and grades. This adult hopefully becomes an adult friend to the assigned student.

We try to match an adult with a student in hopes of giving that student one more person to act as their cheerleader and help support them through the year. The bottom line is we want our students to pass their classes, move on to the next grade, and graduate and become responsible citizens.

It is our hope that you will be able to participate in this program. We like our mentors, if at all possible, to come during the student’s lunch time which is during the middle of the day, 10:16AM through 12:38PM.

If you have further questions, please feel free to contact us. We look forward to building a relationship between JVHS and our community.

Sincerely,

Angela Williams
