Put Together
Addition

Tom has 7 cars. His brother gave him 2 more. How many cars does Tom have now?

Step One: Read the problem and circle the important numbers.

Tom has 7 cars. His brother gave him 2 more. How many cars does Tom have now?

Step 2: Draw and label the picture. (C- for cars.)

7-C

2-C

Step 3: Count the total and write the number sentence.

7-C

2-C

$$7+2=9$$
