

# Ordering Fractions

Order the following fractions from least to greatest.

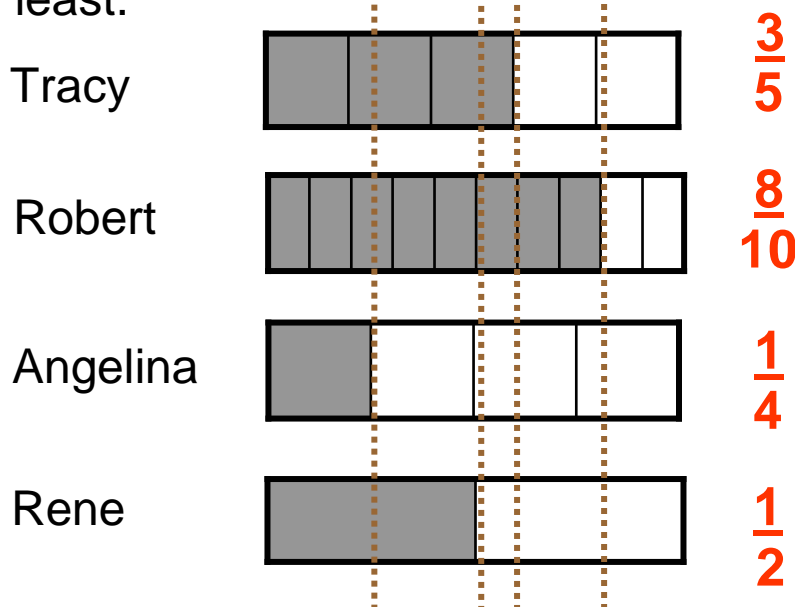

## STEPS:

1. Label each fraction.
2. Use the picture to decide which pictures have more and less. Draw a line or outline the shaded parts.
3. Put in order from greatest to least OR least to greatest.

$\frac{3}{10}$  ,  $\frac{2}{5}$  ,  $\frac{2}{3}$  ,  $\frac{3}{4}$

The following pictures show how much of a reading passage each student had read. Label each fraction. Put the students in order from the one who read the most to the one who read the least.

Robert, Tracy, Rene, Angelina
